

# Madan R. Sangur

## AI/ML Engineer | B.Tech Artificial Intelligence & Machine Learning Student

Haveri, Karnataka, India | +91 93803 50086 | madansangur@gmail.com | linkedin.com/in/madan-sangur-075772275 | github.com/madan-sangur

### SUMMARY

- Apply Python, TensorFlow, Keras, and data tooling to build machine learning prototypes and practical AI product concepts.
- Focus on AI/ML and data-focused internship opportunities where strong fundamentals and hands-on project work can create useful outcomes.

### PROJECTS

**ArcLife** | AI-powered life management platform | In development

- Design a unified experience for planning, habit tracking, journaling, and personal growth.
- Explore AI-assisted guidance and personalized workflows that support consistent routines.

**NeuroPlay** | Python, ML | Code Meet 2025 Hackathon

- Designed and prototyped adaptive learning paths from diagnostic responses and aptitude patterns.
- Applied ML concepts to categorize aptitude and tailor subject matter for individual learners.

**Image Classification Model** | Python, TensorFlow, Keras

- Developed and optimized a convolutional neural network that achieved approximately 98% validation accuracy.

**Student Record System** | C, file handling, data structures

- Built a console-based record-management application using file handling and core data-structure concepts.

### SKILLS

**Programming:** Python, C, Java (OOP), HTML, CSS, JavaScript | **ML & Data:** TensorFlow, Keras, Pandas, NumPy, Machine Learning, Deep Learning

**Tools:** Git, GitHub, MySQL (RDBMS), AWS (Basics), Data Visualization

### EDUCATION

**B.Tech in Artificial Intelligence & Machine Learning** | Srinivas University Institute of Engineering Technology, Mukka

Expected 2027 | CGPA: 6.5/10 (after 4th semester) | Coursework: Algorithms & Data Structures, Linear Algebra, OOP, Cloud Computing Fundamentals

### CERTIFICATIONS

Data Visualization, IBM Developer Skills Network (2024) | RDBMS, IBM Developer Skills Network (2024) | Machine Learning, Ethnotech Academic Solutions (2024)
